Subject: RE: Maltseff - Deposition Availability

Bill,

We will have the draft protective order for you later today or tomorrow morning. Based on our last conversation in which we agreed to take out the provision to keep documents from Dr. Maltseff (while reserving our rights), the only thing at issue should be the patent prosecution bar language, which is new.

Regarding a date in the week you have stated – we propose August 7. Please let me know if that works, and we will send a notice.

Thanks,
Marty

Can you send the revised protective/confidentiality order that you promised? We need that in place. Dr. Maltseff will not be available for deposition this week or next, but I expect to provide you some alternatives the week after that (the week beginning August 6). I will send a letter to you and Randall Kahnke about the schedule today.

Bill,

I am just following up on our conversation of Friday. Do you know Mr. Maltseff's availability for deposition next week and the following week?

Thank you,
Marty
